# Mailing lists: moving to groups.io

- Moving from self-managed Mailman to Groups.io
  - mailing list services in a simple but modern interface.
  - additional community tools that make it an exceptional service solution.
  - largely used by many open source projects already
- List domain change is required:
  - [yocto@yoctoproject.org](mailto:yocto@yoctoproject.org) ⇒ [yocto@lists.yoctoproject.org](mailto:yocto@lists.yoctoproject.org)
  - aliases will be created for old names
- User account will be created for all users
- Tentative plan after ELCe
