MinnowBoard MAX / Turbot – iPython Notebook

John 'Warthog9' Hawley

What is demonstrated

- MinnowBoard Turbot + Calamari Lure running an iPython Notebook webserver

- Chromebook running a discovery agent & a web browser

- Ability to control Calamari lure directly from Chromebook's browser using Python

What was improved

- Mean time to blinking LED
- User experience out of the box
- More approachable programming environment for new users
- Can be done from a phone or tablet
