Cool stuff

Special offer– Self Paced Training

- **Please check out our self-paced hands-on classes**

  - Hands-on classes for interested developers to do after the conference to get real-life experience with core features of Yocto Project.

  - Included is the main DevTool class, plus a User Space class that covers packaging and system services.

  - https://summit.yoctoproject.org/devday-at-eoss-2023/talk/XVHLYC/

Upcoming – Yocto Project Summit 2023.11
