Freedreno – Open Source ARM Graphics

Rob Clark

What is demonstrated

![Diagram showing the components of X11 Application, OpenGL Application, X.Org, AIGLX, freedreno (mesa/gallium), libdrm_freedreno, and msm drm/kms.]

What was improved

FOSS drivers for adreno 2xx/3xx/4xx enables DE's, games, webgl, etc, to work out of the box in your favorite distro.

No blobs or porting to OpenGLES required!
